

Benefits

SWIM

You won't find a better swim. The original Endless Pools® resistance current uses a hydraulically-powered propulsion system engineered to ensure a variable and smooth flow of water.

EXERCISE

With the resistance bands, Aqua Bike and other optional equipment, you can build strength in a near-weightless environment. No strain—all gain!

RELAX

Manufactured in the same facility as leading Watkins Wellness® hot tub brands, our spa experts design the hydromassage features to ensure your post-workout cool-down is as amazing as your workout.

RUN/WALK

The Endless Pools underwater treadmill is the only one of its kind. Its hydraulically-powered system makes it easy to enjoy low-impact running or walking at home.

PLAY

Not all fitness is physical. Feed your emotional well-being by enjoying playtime with your family and friends.

Accessories

AquaBike

Resistance Bands

Bluetooth® Sound System

ENDLESS POOLS® FITNESS SYSTEMS COLLECTION

E500 (457 L x 226 W x 147 D cm)

E550 (457 L x 239 W x 147 D cm)

E700 (518 L x 226 W x 147 D cm)

E2000 (610 L x 226 W x 147 D cm)

You Deserve a Premium Aquatic Experience.

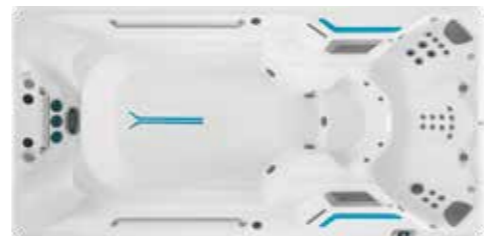

Swim in place against a steady stream of water so smooth you'll think you are swimming in open water.

Run and walk with 360 degrees of resistance and water's buoyancy protecting your joints and muscles from impact.

In an Endless Pools® Fitness System there is no limit to accomplishing a beneficial full-body workout. Swim, bike, walk, exercise, then relax against soothing hydromassage jets, anytime you want, in the comfort of home.

X2000 (610 L x 226 W x 147 D cm)

Exercise that fits your life.

Feel water's resistance for any exercise regimen, any time of day.

Swim and enjoy a jetted swim like no other 'swim spa.' Three round Swim Jets (on top) provide resistance, while the River Jet (below) provides lift. All jets use a boost effect to draw in more water, multiplying the volume. Using the two diverter valves, users can adjust the highly variable pace of the current for both swim and water-workout options.

With SwimCross® Exercise Systems, convenience and versatility are abundant so that staying active and maintaining a busy schedule are not mutually exclusive. Never again ask "how will I fit a workout into my day," with a SwimCross Exercise System just steps from your door.

Fitness isn't always physical.

Time spent with family and friends, or enjoying solitary relaxation are as beneficial to our well-being as physical fitness. RecSport® Recreation Systems are purposely designed so that both recreation and time for fitness are within reach, at an affordable price.
